## PATIENT FORM TO OPT OUT OF ALL DATA SHARING

Confidential information from your medical records can be used by the NHS to improve the services offered so we can provide the best possible care for everyone.

This information along with your postcode and NHS number but not your name, are sent to a secure system where it can be linked with other health information. This allows those planning NHS services or carrying out medical research to use information from different parts of the NHS in a way which does not identify you.

If you would like more information, a leaflet "Important Changes to How We Handle Your Data" is available in the waiting room or at reception.

**You have a choice:** If you are **not** happy for your information to be used in this way please complete this form and return it to the surgery.
